

**THE FRENCH VICTORY.
For
THE “YES” FRANCE.**

“I, THE PEOPLE - WE, THE PRESIDENT!”

LA VICTOIRE FRANÇAISE
MOI LE PEUPLE, NOUS PRÉSIDENT

**Political Platform for
the Presidential Elections of 2022**

Emmanuel ITIER

1 - THE PLATFORM:

A-ECONOMY:

Economy comes from the Greek word: **OIKONOMIA**; “the management of the resources of the household”.

Let us initiate an “organic” economy, a “biological” economy. Biology comes from the Greek words: Bios= Life and Logos= Speeches. Therefore how do we give back to the economy its life?

We are proposing an economy liberating the consumption with a total eradication of all income and property taxes for everyone.

Per the Annex underneath, we can see that 50% of the Government earnings are coming from the volume of sales taxes on all goods consumed by the people.

Therefore, we need a bigger consumption to get a growth of the volume of sales taxes- without raising the percentage of sales taxes.

By “liberating” the consumer, the people, in their spirit and in their checking account, one can hope for less strikes and uprisings in France. This will create a new hopeful France, open for tourism as well as potential foreign investors.

Also, we are proposing zero income taxes for all companies earning up to 500,000 Euros of net earnings. Beyond 500,000 of gross earnings, companies will only be taxed with a flat 10% from their gross earnings. Liberating companies from the burden of taxes will allow them to create more jobs and therefore, participate to the growth of the volume of sales taxes coming from the consumption of new employees.

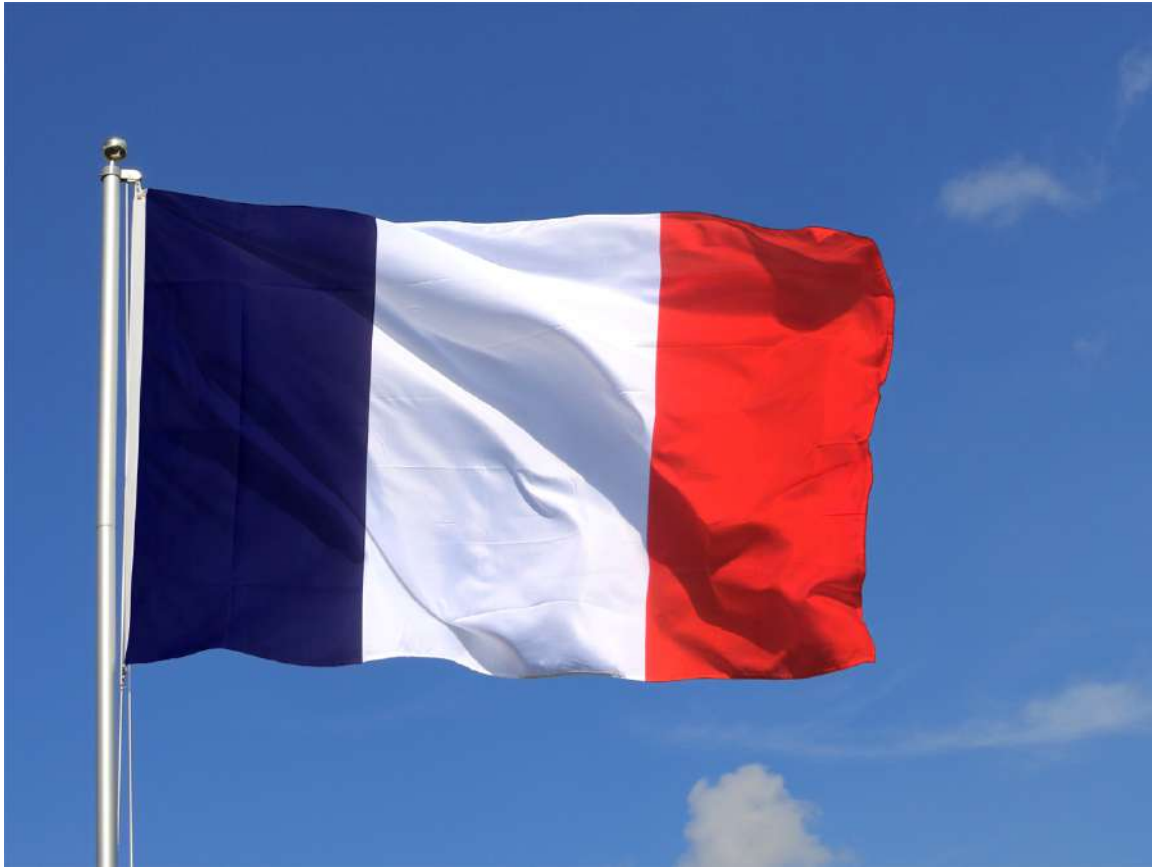

We will also keep developing new energies in order to create a greener France. Little by little, we will free France from its fossil fuel energy dependence.

Instead of “hunting the rich” and the wealthy companies, we will propose them to become partners of the economy in order to invest in various areas such as hospitals, schools, infrastructures... (roads, bridges, etc.).

It is the idea to develop a consciously and socially oriented society where everyone is in partnership with each other, where people are protective and caring for each other. We need to restore the idea of a united French family.
One people, One country.

Together let's build a stronger, more liberated and beautiful country: A “YES” France where everything is doable and possible!

B-POLITICS:

From the Greek word: **POLITIKOS**; about the citizen and the city.

We won't follow any political ideology because this would not allow The French Victory to represent all French Citizen. We propose to look at what is working and what makes sense within the wide political ideology spectrum and brings together the whole people of France. It is about finding our universalism and humanism within and with respect to each personality and individualism.

We propose a spiritual Re-Evolution with the notion of spiritual coming from the Latin “spiritus=the breath”. It is about giving back its breath, its oxygen to the French people.

We, The People – We, The President – We, The YES! France.

C-IMMIGRATION:

France will always be a welcoming country for everyone, but we will have strict guidelines and laws to protect our sovereignty. With this in mind, we will have one united voice with other world leaders to put pressure on countries at war with its own people and forcing them to migrate. Uncontrolled immigration is the gateway to chaos; it does not solve the issues faced by immigrants and it certainly hardens the economical burden on France.

D-SECURITY:

Zero tolerance for anyone attacking and destroying public infrastructures, as well as exercising violence on the various protective forces such as the police.

We propose to enhance the compensation of the police and the firemen and evaluate their equipment needs to help them move into the 21st century with strength and solidity.

E-EDUCATION:

Every teacher will have a significant raise as they are the essential mentors of future generations.

We will also negotiate with philanthropists and their organizations to become financial partners of various school programs to be determined.

F-PENSION FUNDS AND RETIREMENT:

It is necessary to re-evaluate the ultra low level of retirement for most people. We need to find viable financing solutions to guarantee a universal minimum income for all retirees. A financial conference will be organized to study all possibilities and find financing partners.

G- HEALTH:

A universal coverage needs to be accentuated to cover any cost faced by every individual and including dental & optical coverage. We will approach the pharmaceutical and medical multi billion making companies to propose them as potential financial partners.

H-ENVIRONNEMENT:

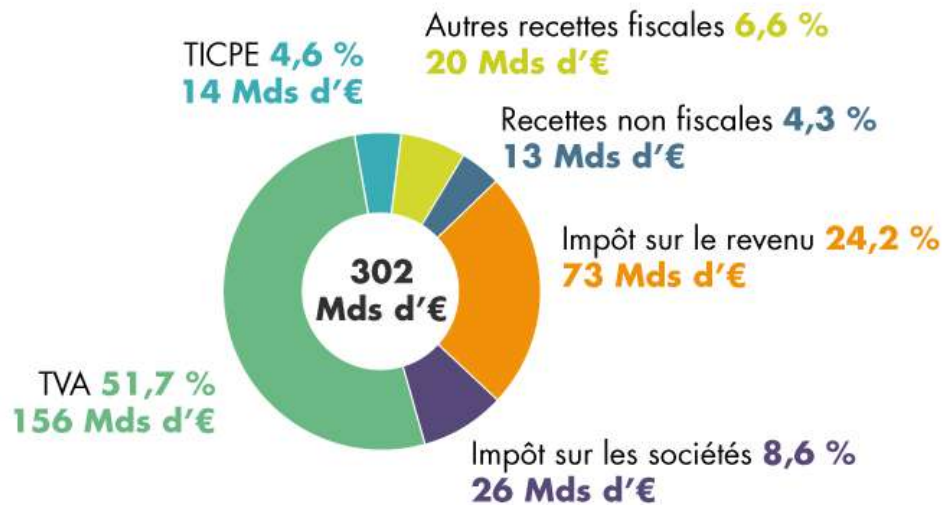

In order to stop the “De-evolution” of our environment, we need to let go of the fossil fuels. It will be a priority to find financing partners to help with the transformation of our society into a green efficient and sustainable country for a green France.

BIOGRAPHY FOR EMMANUEL ITIER

Emmanuel ITIER was born in France in 1967. He grew up in France, then in New Caledonia and he concluded his high school diploma in Nice in the late 80's. He met in 1986 an American woman. In 1988 he married and moved to the United States of America. They stayed together for 10 years. Today, Mr. Itier re-married Bahar Roxanna Bina and, together, they have 3 sons: Felix, Max and Rex.

At first, Mr. Itier became a journalist for many French and US medias. He, then, became a consultant for various International film sales companies. Mr. Itier is still consulting for many French medias and sales companies.

Mr. Itier, also, is a producer-director of Humanitarian Documentaries (www.Wonderlandentgroup.com). In 2012 , 'The Invocation', is released. It is produced by and with a narration of Actress and Peace activist, Sharon Stone. Many Nobel Peace Laureates such as His Holiness The Dalai Lama and Desmond Tutu are featured in this multi-award winning picture. Before this Documentary, Mr. Itier also produced and directed several non-fiction features such as 'The Midnight hour'(1999), 'Scarecrow' (2002) and 'Attila' (2013).

Mr. Itier is a passionate soul whose commitment led him to be part of many Peace organizations, such as: The United Nations Association, The World Council of Wisdom, The Rotary Club, the Monaco Better World Forum and the Darfur Women Action Group.

Itier created several more Humanitarian Documentaries: 'Femme: Women Healing the World' (2013), 'Shamanic Trekker' (2017), 'The Cure' (2018), 'We The People' (2019) and he just completed his sixth feature Documentary: 'Guns, Bombs & War: A Love Story'. These films received several Humanitarian Awards.

His activism led Mr. Itier to politics. In 2019, he formed a new political movement in France called 'La Victoire Française'. His philosophy is: 'I, The People – We, The President'. Mr. Itier wants to bring a unative force to France in order to change its bureaucracy and its state of mind. One People, United for a 'Yes' France.
